The Tale of Kieu

Since its publication in the early nineteenth century, this long narrative poem has stood unchallenged as the supreme masterpiece of Vietnamese literature. *Thông's* new and absorbingly readable translation (on pages facing the Vietnamese text) is illuminated by notes that give comparative passages from the Chinese novel on which the poem was based, details on Chinese allusions, and literal translations with background information explaining Vietnamese proverbs and folk sayings.

The Paperboy (Caldecott Honor Book)

From #1 bestselling author-illustrator Dav Pilkey, a Caldecott Honor picture book about a boy, his dog, and the solitude they share before the world wakes up. In the still before dawn, while the rest of the world is sleeping, a boy and his dog leave the comfort of their warm bed to deliver newspapers. As the boy pedals his bike along a route he knows by heart, his dog runs by his side, both enjoying a world that, before sunrise, belongs only to them. Bestselling author-illustrator Dav Pilkey celebrates the beauty found in silence and the peace that comes from being with a beloved friend in this Caldecott Honor-winning picture book. For more acclaimed picture books from Dav Pilkey, check out *Dog Breath*, *The Hallo-Wiener*, *'Twas the Night Before Thanksgiving*, and *Julius* (written by Angela Johnson). And don't forget the worldwide bestselling *Dog Man* and *Cat Kid* Comic Club graphic novels and *Captain Underpants* chapter books!

The Sheltering Sky

A beautiful 65th anniversary paperback edition of the landmark literary work by acclaimed author Paul Bowles. In this classic work of psychological terror, Paul Bowles examines the ways in which Americans apprehend an alien culture--and the ways in which their incomprehension destroys them. The story of three American travelers adrift in the cities and deserts of North Africa after World War II, *The Sheltering Sky* is at once merciless and heartbreaking in its compassion. It etches the limits of human reason and intelligence--perhaps even the limits of human life--when they touch the unfathomable emptiness and impassive cruelty of the desert.

The Third Eye

It was written in the stars that Lobsand Rampa would be a Tibetan Lama. This is his story of leaving a wealthy privileged world to enter the world of Tibetan spiritual training. Very heavy RR demand.

La Bella Figura

Join the bestselling author of *Ciao, America!* on a lively tour of modern Italy that takes you behind the seductive face it puts on for visitors—*la bella figura*—and highlights its maddening, paradoxical true self. You won't need luggage for this hypothetical and hilarious trip into the hearts and minds of Beppe Severgnini's fellow Italians. In fact, Beppe would prefer if you left behind the baggage his crafty and elegant countrymen have smuggled into your subconscious. To get to his Italia, you'll need to forget about your idealized notions of Italy. Although *La Bella Figura* will take you to legendary cities and scenic regions, your real destinations are the places where Italians are at their best, worst, and most authentic: The highway: in America, a red light has only one possible interpretation—Stop! An Italian red light doesn't warn or order you as much as provide an invitation for reflection. The airport: where Italians prove that one of their virtues (an appreciation for beauty) is really a vice. Who cares if the beautiful girls hawking cell phones in airport kiosks stick you with an outdated model? That's the price of gazing upon perfection. The small town: which demonstrates the Italian genius for pleasant living: "a congenial barber . . . a well-stocked newsstand . . . professionally made coffee and a proper pizza; bell towers we can recognize in the distance, and people with a kind word and a smile for everyone." The chaos of the roads, the anarchy of the office, the theatrical spirit of the hypermarkets, and garrulous train journeys; the sensory reassurance of a church and the importance of the beach; the solitude of the soccer stadium and the crowded Italian bedroom; the vertical fixations of the apartment building and the horizontal democracy of the eat-in kitchen. As you venture to these and many other locations rooted in the Italian psyche, you realize that Beppe has become your Dante and shown you a country that "has too much style to be hell" but is "too disorderly to be heaven." Ten days, thirty places. From north to south. From food to politics. From saintliness to sexuality. This ironic, methodical, and sentimental examination will help you understand why Italy—as Beppe says—"can have you fuming and then purring in the space of a hundred meters or ten minutes."

The Day After Roswell

Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of 20th century history.

American Kinship is the first attempt to deal systematically with kinship as a system of symbols and meanings, and not simply as a network of functionally interrelated familial roles. Schneider argues that the study of a highly differentiated society such as our own may be more revealing of the nature of kinship than the study of anthropologically more familiar, but less differentiated societies. He goes to the heart of the ideology of relations among relatives in America by locating the underlying features of the definition of kinship—nature vs. law, substance vs. code. One of the most significant features of American Kinship, then, is the explicit development of a theory of culture on which the analysis is based, a theory that has since proved valuable in the analysis of other cultures. For this Phoenix edition, Schneider has written a substantial new chapter, responding to his critics and recounting the changes in his thought since the book was first published in 1968.

Step aside Hygge. Lagom is the new Scandi lifestyle trend taking the world by storm. This delightfully illustrated book gives you the lowdown on this transformative approach to life and examines how the lagom ethos has helped boost Sweden to the No.10 ranking in 2017's World Happiness Report. Lagom (pronounced 'lah-gom') has no equivalent in the English language but is loosely translated as 'not too little, not too much, just right'. It is widely believed that the word comes from the Viking term 'laget om', for when a mug of mead was passed around a circle and there was just enough for everyone to get a sip. But while the anecdote may hit the nail on the head, the true etymology of the word points to an old form of the word 'lag', which means 'law'. Far from restrictive, lagom is a liberating concept, praising the idea that anything more than 'just enough' is a waste of time. Crucially it also comes with a selflessness and core belief of responsibility and common good. By living lagom you can: Live a happier and more balanced life Reduce your environmental impact Improve your work-life balance Free your home from clutter Enjoy good food the Swedish way Grow your own and learn to forage Cherish the relationships with those you love

Differentiate or Die

An original theory asserts that this distinctive form of kinship system developed in the northern Mediterranean around the fourth century A.D., and that its subsequent growth can be attributed to the efforts of the early Christian Church to acquire property formerly held by domestic groups.

Why do baby sharks, hyenas, and pelicans kill their siblings? Why do beetles and mice commit infanticide? Why are twins and birth defects more common in older human mothers? A Natural History of Families concisely examines what behavioral ecologists have discovered about family dynamics and what these insights might tell us about human biology and behavior. Scott Forbes's engaging account describes an uneasy union among family members in which rivalry for resources often has dramatic and even fatal consequences. In nature, parents invest resources and control the allocation of resources among their offspring to perpetuate their genetic lineage. Those families sometimes function as cooperative units, the nepotistic and loving havens we choose to identify with. In the natural world, however, dysfunctional familial behavior is disarmingly commonplace. While explaining why infanticide, fratricide, and other seemingly antisocial behaviors are necessary, Forbes also uncovers several surprising applications to humans. Here the conflict begins in the moments following conception as embryos struggle to wrest control of pregnancy from the mother, and to wring more nourishment from her than she can spare, thus triggering morning sickness, diabetes, and high blood pressure. Mothers, in return, often spontaneously abort embryos with severe genetic defects, allowing for prenatal quality control of offspring. Using a broad sweep of entertaining examples culled from the world of animals and humans, A Natural History of Families is a lively introduction to the behavioral ecology of the family.

A Natural History of Families

A new book from James Borg – on what to say and how to say it – so you can get more from the way you talk. All the day-to-day conversations that you have in your private and working life result in a particular outcome. How many times do you come away from a situation and think you could have handled it better? The realization that you should have used different words or said things in a different tone which might have produced a more positive result or avoided friction. How often have you felt frustrated at your inability to state your case and to explain your thoughts well enough for the other person to grasp your point? Make no mistake - talk is our most precious commodity. Human interaction and face to face communication came long before social media websites, e-mail and texting. Yet more and more people have lost the art of conversing effectively and successfully as the ‘screen’ replaces conversation. Talkability provides tried and tested suggestions to help you get your points across and make things happen.

A Handbook to Appalachia

At the beginning of the eighteenth century most European Jews lived in restricted settlements and urban ghettos, isolated from the surrounding dominant Christian cultures not only by law but also by language, custom, and dress. By the end of the century urban, upwardly mobile Jews had shaved their beards and abandoned Yiddish in favor of the languages of the countries in which they lived. They began to participate in secular culture and they embraced rationalism and non-Jewish education as supplements to traditional Talmudic studies. The full participation of Jews in modern Europe and America would be unthinkable without the intellectual and social revolution that was the Haskalah, or Jewish Enlightenment. Unparalleled in scale and comprehensiveness, The Jewish Enlightenment reconstructs the intellectual and social revolution of the Haskalah as it gradually gathered momentum throughout the eighteenth century. Relying on a huge range of previously unexplored sources, Shmuel Feiner fully views the Haskalah as the Jewish version of the European Enlightenment and, as such, a movement that cannot be isolated from broader eighteenth-century European traditions. Critically, he views the Haskalah as a truly European phenomenon and not one simply centered in Germany. He also shows how the republic of letters in European Jewry provided an avenue of secularization for Jewish society and culture, sowing the seeds of Jewish liberalism and modern ideology and sparking the Orthodox counterreaction that culminated in a clash of cultures within the Jewish community. The Haskalah's confrontations with its opponents within Jewry constitute one of the most fascinating chapters in the history of the dramatic and traumatic encounter between the Jews and modernity. The Haskalah is one of the central topics in modern Jewish historiography. With its scope, erudition, and new analysis, The Jewish Enlightenment now provides the most comprehensive treatment of this major cultural movement.

In his apostolic letter *Patris Corde* (“With a Father’s Heart”), Pope Francis reflects on Saint Joseph and his multifaceted role as a father. The purpose of this letter, Pope Francis writes, “is to increase our love for this great saint, to encourage us to implore his intercession and to imitate his virtues and his zeal.” Saint Joseph is a beloved father; a tender, loving father; an obedient father; an accepting father; a creatively courageous father; a working father; and a father in the shadows. As protector, advocate, and guardian of the Holy Family, Saint Joseph has always been venerated as a father to all Christians. With this letter, promulgated on

the 150th anniversary of the declaration of Saint Joseph as Patron of the Universal Church, Pope Francis proclaimed a Year of Saint Joseph from December 8, 2020, to December 8, 2021. Patris Corde ends with a new prayer to Saint Joseph, and the OSV edition includes additional prayers and a litany to this beloved saint.

This study of nineteenth-century Vietnam focuses on interactions between the Vietnamese king, Minh Mang, and the heterogeneous southern region of the country, which he sought to bring more firmly under state control through a series of policies intended to "Vietnamize" the populace and unite north and south.

Records of the Grand Historian of China

Studies of Sino-Viet relations have traditionally focused on Chinese aggression and Vietnamese resistance, or have assumed out-of-date ideas about Sinicization and the tributary system. They have limited themselves to national historical traditions, doing little to reach beyond the border. Ming China and Vietnam, by contrast, relies on sources and viewpoints from both sides of the border, for a truly transnational history of Sino-Viet relations. Kathlene Baldanza offers a detailed examination of geopolitical and cultural relations between Ming China (1368–1644) and Dai Viet, the state that would go on to become Vietnam. She highlights the internal debates and external alliances that characterized their diplomatic and military relations in the pre-modern period, showing especially that Vietnamese patronage of East Asian classical culture posed an ideological threat to Chinese states. Baldanza presents an analysis of seven linked biographies of Chinese and Vietnamese border-crossers whose lives illustrate the entangled histories of those countries.

Ming China and Vietnam

This book is the first on Chinese eunuchs in English and presents a comprehensive picture of the role that they played in the Ming dynasty, 1368-1644. Extracted from a wide range of primary and secondary source material, the author provides significant and interesting information about court politics, espionage and internal security, military and foreign affairs, tax and tribute collection, the operation of imperial monopolies, judiciary review, the layout of the palace complex, the Grand Canal, and much more. The eunuchs are shown to be not just a minor adjunct to a government of civil servants and military officers, but a fully developed third branch of the Ming administration that participated in all of the most essential matters of the dynasty. The veil of condemnation and jealousy imposed on eunuchs by the compilers of official history is pulled

away to reveal a richly textured tapestry. Eunuchs are portrayed in a balanced manner that gives due consideration to able and faithful service along with the inept, the lurid, and the iniquitous.

What is the good life for a human being? Aristotle's exploration of this question in the *Nicomachean Ethics* has established it as a founding work of Western philosophy, though its teachings have long puzzled readers and provoked spirited discussion. Adopting a radically new point of view, Ronna Burger deciphers some of the most perplexing conundrums of this influential treatise by approaching it as Aristotle's dialogue with the Platonic Socrates. Tracing the argument of the *Ethics* as it emerges through that approach, Burger's careful reading shows how Aristotle represents ethical virtue from the perspective of those devoted to it while standing back to examine its assumptions and implications. "This is the best book I have read on Aristotle's *Nicomachean Ethics*. It is so well crafted that reading it is like reading the *Ethics* itself, in that it provides an education in ethical matters that does justice to all sides of the issues."—Mary P. Nichols, Baylor University

Understanding the Bible

The market for business knowledge is booming as companies looking to improve their performance pour millions of pounds into training programmes, consultants, and executive education. Why then, are there so many gaps between what firms know they should do and what they actually do? This volume confronts the challenge of turning knowledge about how to improve performance into actions that produce measurable results. The authors identify the causes of this gap and explain how to close it.

The Eunuchs in the Ming Dynasty

"Tells the darkly humorous story of the French colonial state's failed efforts to impose its vision of modernity upon the colonial city of Hanoi, Vietnam. This book offers a case study in the history of imperialism, highlighting the racialized economic inequalities of empire, colonization as a form of modernization, and industrial capitalism's creation of a radical power differential between 'the West and the rest.'" On a deeper level, *The Great Hanoi Rat Hunt* will engage the contradictions unique to the French Third Republic's colonial "civilizing mission," the development of Vietnamese resistance to French rule, the history of disease, and aspects of environmental history"--

"When Laurence Thompson's original Vietnamese Grammar first appeared in 1965, it went almost instantly

to the top of the list of required reading for serious students of the Vietnamese language. It has stayed there ever since but, in recent years, the title has become almost impossible to find, either in bookstores or in libraries, where original copies have often grown woefully ragged and marked up or are now simply missing. In the meanwhile, the author has become aware of a number of minor infelicities and typographical errors requiring correction. Thus, both demand and scholarship have dictated this re-edition.\'' -From the Editor's Note

A propulsive and “entertaining” (The Wall Street Journal) history chronicling the conception and creation of the iconic Disneyland theme park, as told like never before by popular historian Richard Snow. One day in the early 1950s, Walt Disney stood looking over 240 acres of farmland in Anaheim, California, and imagined building a park where people “could live among Mickey Mouse and Snow White in a world still powered by steam and fire for a day or a week or (if the visitor is slightly mad) forever.” Despite his wealth and fame, exactly no one wanted Disney to build such a park. Not his brother Roy, who ran the company’s finances; not the bankers; and not his wife, Lillian. Amusement parks at that time, such as Coney Island, were a generally despised business, sagging and sordid remnants of bygone days. Disney was told that he would only be heading toward financial ruin. But Walt persevered, initially financing the park against his own life insurance policy and later with sponsorship from ABC and the sale of thousands and thousands of Davy Crockett coonskin caps. Disney assembled a talented team of engineers, architects, artists, animators, landscapers, and even a retired admiral to transform his ideas into a soaring yet soothing wonderland of a park. The catch was that they had only a year and a day in which to build it. On July 17, 1955, Disneyland opened its gates...and the first day was a disaster. Disney was nearly suicidal with grief that he had failed on a grand scale. But the curious masses kept coming, and the rest is entertainment history. Eight hundred million visitors have flocked to the park since then. In Disney’s Land, “Snow brings a historian’s eye and a child’s delight, not to mention superb writing, to the telling of this fascinating narrative” (Ken Burns) that “will entertain Disneyphiles and readers of popular American history” (Publishers Weekly).

The Battle of Franklin

A blonde Irish woman sits in an ice-cream parlour on Le Loi Street singing, a crowd of Vietnamese street children around her, their eyes riveted on her smiling face... Christina Noble knows the pain and loneliness of being left outside the door - of having no door of one's own to walk through, for she was once a street-child herself, alone on the streets of Dublin. When she told the story of her early life in her bestselling autobiography *Bridge Across My Sorrows* she had no idea that it would prove a catalyst for so many others who had suffered childhood pain and rejection, or that it would inspire them to take the first courageous steps towards self-acceptance and their own self-healing. In 1989, driven by a dream and by the memory of her

own past, she travelled 6,000 miles to Vietnam, a country of great beauty where war has left a terrible legacy. Against extraordinary odds she opened the Christina Noble Children's Foundation, a haven of food, beds, medical aid and schooling where the street children of Saigon can find safety and new beginnings under the protection of 'Mama Tina'. In this vivid and moving book Christina's compelling story continues with the amazing tale of what she and her Foundation have achieved. She takes us from the streets of Saigon to the Children's Prisons of Mongolia. A staunch campaigner for children's rights, for her there are no frontiers, only a world filled with children reaching out. Finally she returns to Dublin, where the former street orphan is officially and proudly greeted by the President of Ireland herself.
