"For the actor Ethan Hawke, literature has always been both an inspiration and a motif. In our special interview, also taking in music, fame and family, the Brooklyn-based father of four reveals the books that have made him who he is. Meanwhile in Sweden, a novel named The Saga of Gsta Berlingby the Nobel Laureate Selma Lagerl f has for over a century held a special place in the national psyche as well as abroad. In this issue of The Happy Reader, her wicked collection of sagas sends us off on an expedition through Swedish life, nature, food and much more. Please enjoy it at your own pace in this glorious spring of 2016."

ONE OF WASHINGTON POST'S NOTABLE NONFICTION BOOKS OF THE YEAR A bracingly honest exploration of why there are still so few women in STEM fields—"beautifully written and full of important insights" (Washington Post). In 2005, when Lawrence Summers, then president of Harvard, asked why so few women, even today, achieve tenured positions in the hard sciences, Eileen Pollack set out to find the answer. A successful fiction writer, Pollack had grown up in the 1960s and '70s dreaming of a career as a

theoretical astrophysicist. Denied the chance to take advanced courses in science and math, she nonetheless made her way to Yale. There, despite finding herself far behind the men in her classes, she went on to graduate summa cum laude, with honors, as one of the university's first two women to earn a bachelor of science degree in physics. And yet, isolated, lacking in confidence, starved for encouragement, she abandoned her ambition to become a physicist. Years later, spurred by the suggestion that innate differences in scientific and mathematical aptitude might account for the dearth of tenured female faculty at Summer's institution, Pollack thought back on her own experiences and wondered what, if anything, had changed in the intervening decades. Based on six years interviewing her former teachers and classmates, as well as dozens of other women who had dropped out before completing their degrees in science or found their careers less rewarding than they had hoped, *The Only Woman in the Room* is a bracingly honest, no-holds-barred examination of the social, interpersonal, and institutional barriers confronting women—and minorities—in the STEM fields. This frankly personal and informed book reflects on women's experiences in a way that simple data can't, documenting not only the more blatant bias of another era but all the subtle disincentives women in the sciences still face. *The Only Woman in the Room* shows us the struggles women in the sciences have been hesitant to admit, and provides hope for changing attitudes and behaviors in ways that could bring far more women into fields in which even today they remain seriously underrepresented.

The Negro Motorist Green Book was a groundbreaking guide that provided African American travelers with crucial information on safe places to stay, eat, and visit during the era of segregation in the United States. This essential resource, originally published from 1936 to 1966, offered a lifeline to black motorists navigating a deeply divided nation, helping them avoid the dangers and indignities of racism on the road. More than just a travel guide, *The Negro Motorist Green Book* stands as a powerful symbol of resilience and resistance in the face of oppression, offering a poignant glimpse into the challenges and triumphs of the African American experience in the 20th century.

"When Laurence Thompson's original Vietnamese Grammar first appeared in 1965, it went almost instantly to the top of the list of required reading for serious students of the Vietnamese language. It has stayed there ever since but, in recent years, the title has become almost impossible to find, either in bookstores or in libraries, where original copies have often grown woefully ragged and marked up or are now simply missing. In the meanwhile, the author has become aware of a number of minor infelicities and typographical errors requiring correction. Thus, both demand and scholarship have dictated this re-edition.\" -From the Editor's

"This charming short work recalls *The Little Prince* in its depiction of childhood sensibilities pitted against an often illogical and absurd adult world" (Publishers Weekly). A fable for all ages and a massive bestseller in the author's home country of Vietnam, *Ticket to Childhood* captures the texture of childhood in all of its richness. Narrated by a man looking back, it explores the small miracles and tragedies, the misadventures and misdeeds, that made up his life. We meet his long-lost friends, none of whom can forget how rich their lives once were. Even if Nguyen Nhat Anh can't take us back to our own younger days, he proves himself a master at capturing those innocent times with great deftness—in a novel that also offers "a startlingly vivid portrait of 21st-century Vietnam and its growing pains" (Shelf Awareness). "A hugely appealing and engaging author." —The New Criterion

Have you ever wondered where that Red-tailed Hawk nests or why its always on that lamp standard? Have you ever been curious as to where the best place to find a Bald Eagle might be, or what keeps leaving that pile of feathers in the yard by the bird feeder- a Cooper's Hawk perhaps? In, *The Art of Hawk-Watching*, by internationally recognized and lifelong hawk-watcher, Joe Roy III, the answers to some of these questions and much more are covered. Transcending the standard guide format, this book, by virtue of the author's intimate experience with birds of prey, takes a much more holistic approach to not only finding, identifying, and observing birds of prey, but perhaps more importantly, to understanding them as well. The book is engaging and packed with information and tips including a discussion of the craft of \"tuning in\

If you're ready to take the journey to wealth and personal fulfillment, here's your ticket. In this life-changing little book, entrepreneur and inspirational speaker Keith Cameron Smith shows you how to think like a millionaire and reap the benefits of a millionaire mindset. The key to moving beyond the middle class and up the economic ladder is mastering ten vital principles, including • Millionaires think long-term. The middle class thinks short-term. Create a clear vision of the life you desire, and focus on it. • Millionaires talk about ideas. The middle class talks about things and other people. Ask some positive "what if" questions every day, and bounce ideas off successful people who will be honest with you. • Millionaires work for profits. The middle class works for wages. Take calculated risks and learn to take advantage of good opportunities. We all want to improve our financial position. In this inspirational and practical guide filled with savvy and sensible advice, Smith upgrades you from coach to first class. So follow these principles, transform your life, and realize your dreams!
